

### DOE encourages grantees to prioritize programs and projects that:

- Leverage other public and private resources
- Enhance workforce development
- Persist beyond the funding period
- Promote energy market transformation such as revolving loans, low-cost loans, energy savings performance contracting, advancing building codes, building and home retrofit incentives and policies and transportation program and policies.

### New Construction Specific Eligible Activities:

- Energy modeling and sustainability analysis
- Investments in demand reduction, energy efficiency, renewable energy and waste reduction
- Investments in metering, monitoring and enhanced commissioning
- Investigation and implementation of E&A and M&R-related strategies
- Workforce training

### Sample Eligible Workforce Training Programs:

- An Integrative Approach for Successful LEED Projects
- Basics of Commercial Energy Auditing
- Developing an Energy Efficiency and Conservation Strategy
- Energy Efficiency Retrofits
- Financial Incentive Programs for Green Buildings
- Implementing the LEED Rating Systems
- Indoor Air Quality (IAQ) for Facility Professionals
- LEED for Construction Professionals
- Managing LEED Documentation
- Pursuing and Implementing a Solar Strategy
- Pursuing Energy Efficiency and Conservation Programs for Buildings and Facilities
- Pursuing the LEED AP Credential
- Sustainable Facility Management
- The Costs and Benefits of Green Building
- Understanding and Implementing Your Responsibilities with LEED
- Understanding Green Building Design and Construction (New Construction)
- Understanding the Core Concepts and Strategies of Green Building
- Using Energy Modeling on LEED Projects
